Skills

- HTML
- JavaScript
- C language
- JAVA
- CSS
- Python
- C++ language
- DSA with Python

Trainings

- ➢ **PYTHON COURSE**
  - Completed online course from HackerRank and provided with certificate.
  - https://www.hackerrank.com/certificates/99f36d55ae17

- ➢ **WEB DEVELOPMENT COURSE**
  - Completed web development course from Udemy and provided with certificate.
  - https://www.udemy.com/certificate/UC-35d822a1-6ced-4bdf-8b38-518060a3193a/

Internship

➢ **WEB DEVELOPMENT**

- Completed a web development internship at TechnoHacks where I successfully crafted three projects – a calculator, landing page, and portfolio. These projects were developed using HTML, CSS, and JavaScript, allowing me to enhance my practical skills and gain valuable experience in web development.

Projects

➢ **IOT WORKING MODEL (SMART DUSTBIN)**

- This project is developed using Arduino uno, it is a device which is made to simplify the human life. When a user comes near to the Smart Dustbin, its lid is opened automatically by the use of an ultrasonic sensor and after garbage is thrown into the Smart dustbin it automatically shuts the lid. It can be useful for old age people who are unable to bend and throw the garbage.

➢ **WEBSITE (ONLINE EBOOK PLATFORM)**
- This project is developed using HTML, Tailwind CSS, it is a web site which is designed to sell eBooks.
- An online e-Book platform is an innovative online platform designed to provide an extensive collection of eBook across various genres, catering to the diverse reading preferences of users worldwide. This project aims to create a seamless and immersive digital reading experience, offering a user-friendly interface and a vast library of books accessible anytime, anywhere.
